

Statement on meeting the requirements of REACH

In accordance with Article 33, para. 1, the European Parliament and Council Regulation (EC) no. 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals - REACH - the company PragoBoard Ltd. Has obligation to inform customers of defined chemical substances contained in its products, whether manufactured in or imported into the Member States of the European Union. The objects (products, eg. PCB) containing substances meeting the criteria of Article 57 that there were identified in accordance with Article 59, para. 1, in concentrations above 0.1% wt., The company PragoBoard Ltd. has to provide sufficient information to allow safe use of the subject; goes at least the name of the substance contained in the article.

European Chemicals Agency (ECHA) has officially released the list of substances (SHVC) that meet the above criteria. The current version of the list is available on the website:

http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp

Building on our above obligations we in the process of identifying substances SHVC:

- reviewed internally and publicly available technical data relating to the presence of substances SHVC in any of our products or their ingredients;
- reviewed all available safety data sheets for all input materials;
- communicate with our suppliers to eliminate, respectively confirmed the presence of substances SHVC in any folder of our products.

Based on the results of this procedure we certify that the products we currently supply to the market do not contain any substances that are listed in SHVC in concentrations above 0.1% by weight.

PragoBoard Company Ltd. is committed to continue to meet the requirements of REACH and to inform customers about changes in products.

In Prague 25. October 2013
